DUPLICATE DISPLAY PORTRAIT 20% OFF

Each portrait will spend hours in the editing / developing stage. Colors are adjusted, blemishes removed, wrinkles reduced, eyes are lightened, etc... If you have specific requests please let us know when you order. Each requested change will affect subsequent changes. Only the finest paper and ink is used. Under standard conditions you can expect your prints to last 150+ years without fading. Canvas prints with their layers of glaze are even more durable. Please contact us if you have any requests or questions.
